Anwar Dissi

Job Title/Profession: Service and Account Manager at Juniper Networks

IACC community member for over 10 years

About Me: Alhamdulillah, I have been a regular at Plano Masjid since 2002. It is a great blessing from Allah that I have been a member in several committees. The last committee I was on is the Imam Search Committee and with the guidance of Allah, we were able to select a great Imam, alhamdulillah.

I feel the biggest issue facing the Muslim community is: we are so fragmented as Muslims in the US.

- I will be focusing on our unity at all levels - within our Masjid with other Masajids in Collin County and within our community.
- We need to be speaking with one voice especially, now with all the elections which will affect all of us as Muslims in this country

My short-term vision for IACC: there are a lot Muslims within our community that do not go to a Masjid, I would like to work with the future Shura Imam, Resident scholars and other to put programs in place to attract more Muslims especially Youths; this part of the unity theme i will be advocating for.

My long-term vision for IACC: I would love in ten years to have all or most of the Shura members be of the youth who were born in the US and not just immigrants like me. This means we need to work on future leaders and the youth who can lead this community for future generations.

You should choose me as your Shura Member because: I love this house of Allah and I would love to seek the pleasure of Allah by serving the house of Allah.

Please if you think other candidates are more qualified than me please do not hesitate to select them. We all need to make sure our Masjid is in good faithful hands.

Shakeel M. Farooqui

Job Title/Profession: Director Research & Development, Fabgennix Int. Inc.

IACC community member for over 10 years

About Me: Married to my wonderful and supportive wife Shiru, together we have 4 children. My formal degree is in Molecular Biology and I direct R&D division at Fabgennix. Our association with masjid in different places we lived had always been pleasant, whether as congregant or Shura/Board Member.

I am a fiscal conservative with Islamic values that are inclusive and lie somewhere in the middle of the spectrum.

I strongly believe that we should work towards making IACC financially self-sufficient.

I feel the biggest issue facing the Muslim community is: Islamic/moral values; in my opinion lack of these values is the basis of all the problems we have around us. We all have lapses in this area, some minor others more serious.

In order to instill these values in to community at large, we as persons, and more importantly our scholars, should play as a role-models. Lectures and unidirectional talks are fine but a more comprehensive hands-on and interactive workshops in "informal settings" will demonstrate a better understanding of these characters. These training exercises can be organized or can be spontaneous when and where ever we see Islamic values are compromised.

My short-term vision for IACC:

- Financial independence from donations and "annual fundraisers"
- Initiate revenue generation fixed assets projects that will support IACC on perpetual basis for years to come

My long-term vision for IACC:

To strengthen the "Collin County Consortium of Masajids," CCCM. This umbrella organization will share the common interest projects of all Collin County masajids like, capital assistance program, cemetery, lectures by outside and local scholars, sports and academic activities, publications, etc.

You should choose me as your Shura Member because: when I will cast my vote and I see if someone who can serve our community better than myself, I will vote for that person. I am sure most of the candidates will have this capacity and they should be selected without bias.

Kaiser Saeed

Job Title/Profession: Global Cloud Offering Manager

IACC community member for over 10 years

About Me: masha'Allah, married with three children. Allah SWT has blessed me with the opportunity to serve IACC from before this Masjid was built; pioneered Sunday School, taught at all levels, served as Principal and Education Chair are a few among other volunteered opportunities. Also served as adjunct professor and delivered lectures at IEEE & various other universities and volunteer at Habitat for Humanity among other opportunities through my employer.

I feel the biggest issue facing the Muslim community is: unity and standing up for justice collectively. In my humble view, we must respect each other, think beyond one's own self, educate ourselves and work collectively towards common good. I will work towards enhancing this level of unity in our immediate community and further propagating it to engage other communities.

My short-term vision for IACC: first off, there needs to be a broader input towards creating a collective vision, so we have synergy towards achieving the goals. Our dear Imam, alluded to such a need as well. We have, unfortunately, witnessed several incidents where Imams have shattered the trust of their communities and impacted our youth tremendously.

In the short term, we must provide broader set of secure social services, including counseling (recruit more sister counselors), go beyond youth lectures, have youth produce concrete results, participate in athletics, and socialize in a dignified manner.

We must have all volunteers and paid employees go through proper background checks.

My long-term vision for IACC: I would like to see IACC as the best masjid and community center in the country. I will stand for allocating a significant portion of budget for youth development and engagement. I will encourage halal entertainment and involve schools and universities students in masjid activities. Collecting feedback from our community and act/respond to it in a professional manner.

You should choose me as your Shura Member because: alhamdulillah, I am blessed to be a part of Collin County's vibrant community. It has been great learning and giving back since pre-inception days of IACC. If Allah SWT is willing, I intend to serve this community at a broader scale with humbleness and sincerity towards Him and firm actions towards the betterment of this community.
