

IACC Elections 2024

Meraj Ahmed Khan

Experience

As-Salamu Alaykum, I have volunteered at IACC for the past 9 years in various roles and running for the Shura for the first time. I've been a member of the IACC Technical Education Committee and launched the first STEM/Robotics summer training for youth in a DFW masjid at IACC. I also served on the Quranic Education Committee, where my children began their Quranic education and Alhamdulillah went on to be Hafiz. Additionally, I led the Events Committee, managing a variety of community events, and volunteered at the Farmersville Muslim Cemetery. Previously, I held office with national Muslim advocacy organizations such as IAMC.

Professionally, I bring over 17 years of technology leadership experience working with firms like PwC, Accenture, and Microsoft. I have a strong track record of building high-performing teams in complex enterprise environments.

Strategic Future Initiatives

- Enhance transparency in functioning of IACC.
- Foster community unity through religious, educational, and social events.
- Prioritize youth development through mentorship and leadership opportunities.
- Work toward IACC's self-sustainability by growing the endowment fund.
- Establish a scholar-guided, mandatory onboarding process for IACC involvement.
- Promote Dawah through public workshops, interfaith dialogues, and outreach.
- Ensure open communication with a focus on inclusivity and diversity.
- Prepare IACC for the development of a future Islamic school.

Vision

I am committed to enabling a community grounded in Islamic principles of transparency, unity, and compassion. In Sha Allah, I aim to create spaces for spiritual growth, empower youth leadership, and foster interfaith understanding. Through inclusivity, Shura (consultative decision-making), and open communication, I seek to strengthen our shared devotion to Allah SWT.
